THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Raymond in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the I.O.O.F. Hall in said Raymond on Tuesday, the twelfth day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To see what action the town will take relative to the playing of Beano in the Town of Raymond.
4. To see what sum of money the town will vote to raise and appropriate for town maintenance including snow.
5. To see what sum of money the town will vote to raise and appropriate for street lighting.
6. To see what sum of money the town will vote to raise and appropriate for Memorial Day.
7. To see what sum of money the town will vote to raise and appropriate for the Fire Department.
8. To see what sum of money the town will vote to raise and appropriate for Dudley-Tucker Library.
9. To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes.
10. To see if the town will vote to raise and appropriate such sums for State Highways as are recommended by the New Hampshire Department of Public Works and Highways.

11. To see what sum of money the town will vote to raise and appropriate for tarring.

12. To see what sum of money the town will vote to raise and appropriate for maintaining the dump.

13. To see what sum of money the town will vote to raise and appropriate for cleaning Main Street.

14. To see what sum of money the town will vote to raise and appropriate for Parks and Playgrounds.

15. To see if the town will vote to authorize the Board of Selectmen to sell at public auction any property acquired by Tax Collector deeds.

16. To see what sum of money the town will raise and appropriate for Civil Defense.

17. To see what sum of money the town will vote to raise and appropriate for the continuance of the Raymond Recreational Program.

18. To see if the town will vote to raise and appropriate a sum of money for construction and repairing the sidewalk on Epping street from the Common to School Street.

19. On petition of Mr. and Mrs. Fred Andrews and twenty-seven others, to see if the town will raise and appropriate a sum of money so that the stretch of road on Harriman Hill Road from Fred Andrew's to Nell Sias' be raised to a level which will prevent flooding of said road. The petitioners claim that—"Flooding of this road occurs every time we have a heavy rain, not just in the spring. We cannot have proper sanitary conditions or a heating system as long as the water comes over the road. This condition causes it to be most unsanitary. A number of school children have to walk over this road every day and at times the water is very deep."

20. On petition of Assunta J. Ege and eleven other legal voters of the Town of Raymond, to see if the town

will vote to accept as a public highway Francesca Drive, which extends from Epping Street to Juanita Avenue, and Juanita Avenue from Lot No. 17 to Epping Street, and Susan Circle from Francesca Drive to Juanita Avenue; all as shown on a Plan of Charmingfair Associates, made by J. B. Folsom, C. E., in December, 1955, and recorded in Rockingham Records December 23, 1955.

21. On petition of Emile G. Brisse and nine others to see if the town will vote to accept Woodlawn Road and part of West Shore Drive at Governor's Lake—a distance of five hundred yards.

22. On petition of Byron G. Page and eleven others, to see if the town will vote to accept Woodlawn Road and part of West Shore Drive at Governor's Lake—a distance of five hundred yards.

23. On petition of Daniel A. Sundeen and ten others, to see if the town will accept for \$1.00 the street known as Sun Hill Road, running one thousand feet north off Route 101, next to the property of Joseph Taylor, on which town water and gravelled top have already been installed.

24. On petition of Jesse Alexander and eleven others, to see if the town will raise and appropriate a sum of money to tar the road connecting Routes 102 and 107, known as the "Bill Brown Road."

25. On petition of Paul S. Himan, Sr. and eleven others, to see if the town will raise and appropriate the necessary sum of money to improve Mountain Road, so that it will be passable throughout the year. The petitioners claim that—"At the present time there are many days when it is impossible for the children to attend school or the families to get to their employment or obtain fuel and supplies. Tar or oil is necessary to hold the sand and gravel on the hills."

26. On petition of Robert E. Eccleston and twelve others, to see if the town will vote to adopt a Town District Planning Board under Chapter 53 of the Revised Laws of The State of New Hampshire, Volume 1, Paragraph 4, of 1942. Personnel shall consist of one

Selectman, who shall be chosen by the Selectmen, to act as an ex officio member, and six members respectively, who shall be appointed by the Selectmen. Tenure of office shall be in accordance with Paragraph 5.

27. On petition of Robert E. Eccleston and eleven others, to see if the town will vote to adopt the provisions of the Municipal Budget Law, Chapter 52, Paragraphs 1 and 2, Revised Laws of The State of New Hampshire, Volume 1, of 1942. Upon its adoption the committee shall consist of twelve members at large and one member of the School District and one member of the Board of Selectmen, to be designated by the said Boards. Tenure of office shall be in accordance with Paragraph 2. The majority of the members at large shall be appointed by the Moderator within thirty days after Town Meeting.

28. On petition of Robert E. Eccleston and eleven others, to see if the town will vote to establish a commission or a committee consisting of the following: Chairman of the Board of Selectmen; the School Board; the Water Board; the members of the Raymond Industrial Associates, Inc.; the members of the Raymond Improvement Society, Inc.; three business proprietors and three property tax payers; this commission or committee to publicize the town in order to induce new business to locate here, with special attention to procuring an industry to locate in the so-called Big Factory, now vacant; and to see what sum of money the town will vote to raise and appropriate for funds for this project. The appointments shall be made by the Moderator within thirty days of this Annual Town Meeting.

29. On petition of Robert E. Eccleston and eleven others, to see what sum of money the town will vote to raise and appropriate to purchase a tank truck for the Raymond Fire Department.

30. On petition of Robert E. Eccleston and ten others, to see what sum of money the town will vote to raise and appropriate to purchase a five hundred gallon per minute Midship pump with adequate suction hose, not to exceed

a cost of \$1,500.00; the pump to be erected on the present Ford hose truck of the Raymond Fire Department.

31. To see if the town will vote to appropriate the sum of \$15,500.00 for the purchase of a new motor pumper, and to authorize the issue and sale of bonds or notes of the town therefor, under and pursuant to the Municipal Finance Act.

32. To see if the town will vote to borrow a sum of money not exceeding \$14,000.00 for the extension of water mains on Epping Street, a distance of approximately two thousand feet, and to issue and sell in connection with such borrowing notes of the Town of Raymond in the principal amount not exceeding \$14,000.00; such notes to be issued pursuant to Chapter 72 of the Revised Laws of 1942, as amended, payable from funds to be raised by taxation, to bear interest at a rate not exceeding 5 percent, payable semi-annually, principal payable in equal annual installments of \$2,000.00 per year, the first payment being due one year from date of said note, and all other matters in connection with said notes to be left to the discretion of the Selectmen.

33. To see if the town will vote to borrow a sum not exceeding \$8,000.00 for the purchase and installation of water meters, and to issue and sell in connection with such borrowing notes of the Town of Raymond in the principal amount not exceeding \$8,000.00; such notes to be issued pursuant to Chapter 72 of the Revised Laws of 1942, as amended, payable from funds to be raised by taxation, to bear interest at a rate not exceeding 5 percent, payable semi-annually, principal payable in equal annual installments of \$1,000.00 per year, the first payment being due one year from date of said notes, and all other matters in connection with said notes to be left to the discretion of the Selectmen.

34. On petition of Grace Howard and twelve others, to see if the town will vote to install and maintain a street light on the pole easterly of Prescott Road and on Route 101, the same to be installed on the pole with marks "J" N.E.T.&T. Co. 113-476 and 22-7-88 N.H.

G. & E. Co., and appropriate the necessary money for the same.

35. To see what action the town will take to dispose of the old Town Hall bell.

36. To see what action the town will take to obtain a resident doctor and to raise and appropriate the necessary sum of money for the same.

37. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this twenty-fifth day of February, in the year of our Lord nineteen hundred and fifty-seven.

HOWARD W. EDWARDS
CALVIN J. LANGFORD
Selectmen of Raymond

A true copy of Warrant—Attest:

HOWARD W. EDWARDS

REPORT OF HIGHWAY AGENT

Jan. 1, 1957

The past year we did have some overdraft. Last spring after town meeting we had more snow than we did all winter put together, which was mostly the cause of it. We also bought a hydraulic wing for one truck which has proven to be money well spent. There are a lot of places where we can't use a wing or if we want to turn around on a dead end street we can pick our wing up with the hydraulic system and do so much easier.

The town building is proving to be a great help as we have had such cold weather. We did install heat and lights. The doors will be open all day town meeting day so anyone that has not had an opportunity to see the interior of the building may do so at that time.

This coming year is going to run into as much money as last year at least. I did save some money by buying a full carload of salt, which we can save by buying that way. On tires for the grader we are saving about \$60.00 apiece. This coming year we will probably need, two, we bought two last year.

I have tried for two years to cut more bushes and trees beside the roads, but due to the ice storms and plowing snow the past two years, it has put me behind on that project.

The town equipment is in good shape, as far as I know, at the present. This coming year I would like to get another hydraulic wing for another truck, which would make the Highway Department in good shape for most any kind of a winter. This winter I have had a second truck to plow with which is a great help in getting the roads open faster. After each storm we wing the snow back as far as possible with the grader.

I would like to thank Mr. Knights for the ditching and replacing of culverts on Harriman Hill. It saved the town quite a bit.

I appreciate the cooperation the Selectmen and Citizens have given me this past year.

Respectfully submitted,
Lyman Hammond
Road Agent

REPORT
OF AN EXAMINATION AND AUDIT
OF THE ACCOUNT
OF THE
TOWN OF RAYMOND
FOR THE FISCAL YEAR ENDED DECEMBER 31, 1956

Board of Selectmen

Raymond, New Hampshire

Gentlemen:

Submitted herewith is the Audit Report as made by Hunt's Accounting Service, as requested by your Board of Selectmen.

SCOPE OF AUDIT

All departments of the town Government were audited: The Board of Selectmen, Treasurer, Tax Collector, Clerk, Trustees of Trust Funds, Library and Water Department.

FINANCIAL STATEMENTS

Exhibit A-1 contains the Balance Sheet. This Exhibit reflects the Assets (or accounts due the Town) and the Liabilities (or the accounts owed by the Town). The difference of which would show a Surplus or Debt whichever is larger. The financial condition of Raymond at the end of December 31, 1956, shows a small Net Debt of \$8,336.08.

Exhibit A-2 shows the appropriations as raised by the Town vote, receipts and reimbursements of appropriations, expenditures and balances as under-expended and over-expended. The final over-expenditure of \$9,602.59 is shown in the Budget Summary on Exhibit A-3.

Exhibit A-3 shows the anticipated revenues and the amounts actually received by the Town. The final excess of revenues was \$3,777.90, as shown in the Budget Summary. The net budget deficit for the year was determined as follows:

Net Overdraft of Appropriations	\$9,602.59
Net Revenue Surplus	3,777.90
Net Budget Deficit	<u>\$5,824.69</u>

DEPARTMENTS

Exhibits B-1 through I show the various town officers' accounts. All monies were accounted for by reconciling with the depository banks. The Road Agent's payrolls were checked for signatures and amounts.

Verification notices were sent out on all delinquent taxes for the 1956 Levy.

RECOMMENDATIONS

The Road Agent's payroll money should be deposited in a special Road Agent Account. Personal money should never be involved in any town official's accounts. It was impossible for us to check individual payroll checks because personal funds were included with the payroll checks.

Several classifications in the Selectmen's Record Book were reclassified. Careful consideration should be given to these expenditures and the monies spent should be classified out of the account it was appropriated for by the Town vote.

To the officials of the Town of Raymond, many thanks for the cooperation and aid given to me during the course of the audit.

Very truly yours,
Herbert E. Hunt
Auditor

CERTIFICATE OF AUDIT

This is to certify that the accounts and records of the Town of Raymond have been audited for the fiscal year ended December 31, 1956.

The following Exhibits show the financial condition, revenue sources and expenditures of the Town for the fiscal year ended December 31, 1956.

Respectfully submitted,

Herbert E. Hunt
Auditor

INDEX

EXHIBITS:

Financial Information:

- A-1—Balance Sheet—As of December 31, 1956
- A-2—Comparative Statement of Appropriations and Expenditures
- A-3—Statement of Estimated and Actual Revenues and Budget Summary

Treasurer:

- B-1—Classified Summary of Receipts and Expenditures
- B-2—Summary of Receipts, Expenditures and Proof of Balance

Tax Collector:

- C-1—Summary of Warrant—Levy of 1956
- C-2—Summary of Warrants—Prior Years
- C-3—Summary of Tax Sale Account

Clerk:

- D—Summary of Town Clerk's Motor Vehicle Permit and Dog License Accounts

Trust Funds:

- E—Summary of Trust Fund Principal, Income and Investments

Water Department:

- F—Summary of Receipts, Expenditures and Proof of Balance

Dudley Tucker Library:

- G—Summary of Dudley Tucker Library Account and Proof of Balance

Indebtedness:

- H—Statement of Long Term Indebtedness, Showing Annual Maturities of Principal and Interest Payable

Surety Bonds:

- I—Town Officers' Surety Bonds

Treasurer

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Raymond, New Hampshire, qualified to vote in district affairs:

You are hereby notified to meet at the School Auditorium in said district on the 11th day of March 1957, at eight o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state found-

ation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Given Under our hands at said Raymond this 18th day of February, 1957.

MARTIN J. DIONNE

ENROLLMENTS AND BORROWING POWER

Last year a survey was made of the districts involved showing the school population at that time and the probable enrollments for the next five years based on the census reports.

This survey was placed in the hands of the people present at a meeting in Raymond. Each Board Member and other interested citizens should have this survey for ready reference if interested in a cooperative school district.

No meeting has been held since that time due to many reasons among which were the pressure of other school business and the summer vacation.

However, the data to be submitted on the following pages in the following charts. This data is not the final answer in our search for the solution to the problem, but it does try to show the groupings of the various districts in relation to each other pertaining to enrollments from Grade 7 through Grade 12 together with the financial data so necessary in solving the problem of school housing.

Therefore, the following charts are submitted as possible district groupings.

CHART A

Estimated Enrollments as of today or this year.

	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12	
Auburn	26	22	14	7	12	5	86
Brentwood	20	16	16	18	9	12	91
Candia	31	23	21	17	13	3	108
Chester	27	29	14	10	13	8	101
Deerfield	15	21	7	12	10	8	73
Epping	36	31	35	31	22	19	174
Fremont	13	6	4	6	11	3	43
Nottingham	13	9	12	10	5	4	53
Raymond	27	31	28	21	13	18	138
Totals	208	188	151	132	108	80	867

Note—All tuition pupils are figured in own districts.

The above chart takes in nine districts if or when they should decide to go in together. This grouping will have about 865 students for grades 7 through 12. All the data submitted here and following is based on Grades 7 through 12.

CHART B

You will understand that it will be very hard to get all districts listed in Chart A to get together. Therefore Chart B groups five districts within a radius of 26 miles both in the Epping Union and the Raymond Union.

	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12
Brentwood	20	16	16	18	9	12
Candia	31	23	21	17	13	3
Epping	36	31	35	31	22	19
Fremont	13	6	4	6	11	3
Raymond	27	31	28	21	13	18
Totals	127	107	104	93	68	55

91
108
174
43
138
554

CHART C

This chart takes a different group of five and sets up the present enrollments.

	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12	
Candia	31	23	21	17	13	3	108
Deerfield	15	21	7	12	10	8	73
Epping	36	31	35	31	22	19	174
Fremont	13	6	4	6	11	3	43
Raymond	27	31	28	21	13	18	138
Totals	122	112	95	87	69	51	536

CHART D

Here again the number of districts have been reduced to four with present enrollments. Nottingham is not in this grouping, but it could very well be included in both group B and Group C as well.

	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12	
Candia	31	23	21	17	13	3	108
Deerfield	15	21	7	12	10	8	73
Epping	36	31	35	31	22	19	174
Raymond	27	31	28	21	13	18	138
Totals	109	106	91	81	58	48	493

On the next page you will find Chart E.

This is a financial chart in that it shows the financial condition of all the above name districts as of June 30, 1956. This is an important piece of data because upon this data will depend the possibility of setting up the desired building and cooperative system.

CHART E

Districts	Long Term Borrowing Capacity on Basis of 1954 Assessed Valuation as Equalized			Actual Amount Available as of June 1956, Borrowing Capacity Less Present Debt					
	1954 Assessed Valuation as Equalized	1954 Equalized Valuation	Outstanding Debt as of June 30, 1956	3 % Limit	4.5 % Limit	6 % Limit	3 % Limit	4.5 % Limit	6 % Limit

DISCUSSION

Let us look at the totals of the various charts to see the number of children which would attend IF that group works together for a new 7-12 grade school.

Chart A—867 pupils

Chart B—554 pupils

Chart C—536 pupils

Chart D—493 pupils

On the face of this data, it could be stated perhaps, that Charts B, C, and D would offer the best setups in relation to the school enrollments bearing in mind however that other necessary data is also favorable.

Let us now take a look at the financial data of those various groupings.

1. Suppose the districts in Chart E decide to enter into a cooperative school district, grades 7-12, with 865 pupils. The chances are that a school which would house this number of pupils would cost in the vicinity of \$600,000. Refer to Chart A again. Since the total outstanding debt of the districts grouped is \$257,500, it would be necessary to go to the 4.5% limit of borrowing capacity or about \$731,102. It would be well to remember also that of the nine districts listed probably at least two would not join thus reducing the size of the group and the borrowing capacity.

2. Let us look at Chart B showing the districts listed. Here we find that the probable enrollment would be about 550 students. This is considered a good workable sized school both from the standpoint of numbers as well as administration, to say nothing about curriculum. From the financial standpoint, the data here shows a different picture. The outstanding debt of this group is \$142,500. On the 3% limit this group could borrow \$243,642 and on the 4.5% limit it could borrow about \$432,215. A school of 550 students with a chance to grow would cost between \$400,000 and \$500,000. This group could contract such a plant and the amount would include architect and planning, site, equipment water and site development.

3. The group in Chart C shapes up as follows:

The total number of students in this group shows about 535, nearly as many as in Chart B. Here is another size group that would be about right. The total debt of this group would be \$150,000. The borrowing capacity at 3% is \$254,416 and at 4.5% is \$452,375. As you have already seen Chart C group is nearly the same as Chart B relative to numbers and financial status.

4. Chart D groups but four districts. And it might be added here that you or any person could make his own groupings. The ones given are only suggestions and to get the taxpayers familiar with the procedure. Chart D shows about 500 pupils, which, with the possible chances of growth, is a pretty fair sized school for New Hampshire. Financially, the outstanding debt of this group is \$133,000. The borrowing capacity at the 3% limit is \$224,612 and at the 4.5% limit is \$398,919.

You should know that when necessary, according to law, any district or group of districts who desire to form a cooperative school district may petition to a special committee to get a 6% limit of borrowing power. These amounts are figured on Chart E, but are not used in this discussion except as a note here.

There are other factors that need to be studied along with the above data, and the data provided last year on the estimated pupil growth in the various districts here involved. These factors are building site, equipment, water development, planning and building, comparative figures of present costs and estimated cooperative costs and the effect on the tax rate in each district, proposed curricula, size of the building, transportation, estimated increase in population and probably a very important factor—the publicity campaign.

REPORT OF SCHOOL BOARD

In our last two reports we have dealt extensively with the problem of rising enrollments and crowded conditions, particularly in the elementary grades, and the prospective limitations and inefficiencies of a high school of possibly 110 or more pupils.

Two years ago the voters authorized the Moderator to appoint a committee to investigate the advisability of a cooperative high school. Committee members and interested volunteers have met several times with like groups from nearby towns. The cooperative high school arrangement, as detailed by the Commissioner of Education, Dr. Austin McCaffrey, and Mr. Paul Farnum of the State Department of Education, appears to have been well received. However, real enthusiasm varies with the urgency of a given town's enrollment problems. For example, Town "A", with obsolete and inadequate high school facilities, is anxious for immediate action, while town "B", currently sending tuition pupils to a superior city high school, complacently ignores the eventual prospect that the city may refuse to accept these students any time their facilities become over-taxed.

In Raymond, our facilities, while full, are not now overcrowded. Your equipment is good. However, conservative estimates lead us to conclude that we must have two to four additional rooms by September 1959. The alternative is to strive for a cooperative high school by that time, not only to provide a better high school education for our students, but to relieve our elementary facilities. It should be noted that by 1959 our District will be debt free and in an excellent position to participate in such a cooperative school. We cannot over-emphasize the importance of this project and we invite all parents and citizens to participate in organizational discussions.

Please note that this year's budget shows only a slight increase, based primarily on teachers' salaries. If our State Aid is increased, as proposed, we may conceivably require less tax money than last year. We have reached a tapering point on improving and modernizing our facilities and your support over the past few years has been deeply appreciated.

Our sincere thanks to Superintendent Watson, Principal Callaghan and our excellent staff of teachers for their efforts toward and dedication to the education of our children. Citizens of Raymond may feel justly proud of our school faculty, a group which compares favorably with any faculty in this area.

To all we extend a cordial welcome to attend School Board meetings, in order that we may mutually improve our school.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

February 1, 1957

To the School Board of Raymond, New Hampshire:

May I present my tenth annual report of the schools of Raymond?

There were a number of replacements in the teaching staff for 1956-1957. Of the regular teachers in the system, nine are elementary and five are secondary with a supervising principal. Of the nine elementary teachers only one replacement was necessary—Mr. John F. Hayes, Jr. of Manchester to replace Mr. Paul Wheeler in Grades 7-8. However, in the high school five replacements, all positions, were necessary—Mr. O'Connor for Mr. Hixon; Mrs. Delisle for Mr. Chase; Miss Viger for Mrs. Leonard; Miss Shea for Miss Remp; and Mr. Haus for Mrs. Cloutier. It is very gratifying to add here that in my opinion, the entire teaching staff is one of the best in years.

As was reported last year for the previous five years, turnover in the teaching staff has been nearly 50%. This percentage seems to have continued for 1956-57, in fact, the replacement was 66% for this year. The paramount factor still is salary which leads in great part to the teacher shortage.

It is obvious that the number of teachers available does not keep pace with the increase in the number of children which enter our schools. It is also very clear that teachers are looking for better jobs which would include more fringe benefits as well as higher salaries. Our teacher-replacement each year shows that not only are they looking for more money, but also that they are using the job in Raymond or any small community, as a position for experience and as a stepping stone to a better position just as soon as possible. These smaller towns have always more or less rationalized by saying that we must expect large turnovers in the teaching staff because of more money and greater opportunities in larger and richer communities. However, we still criticize the teaching and wonder why they cannot be hired and do the job which is done in the more lucrative areas. When are we going

to accept the fact that the children in the small towns make up the core of American Democracy and are just as important to our way of life as the children in the more urban places? Many of these so-called small towns are at last beginning to appropriate money to buy experienced teachers and hold them indefinitely especially where they must compete with the cities.

Another vital problem for the Board to solve involves housing. According to the census report the increase in the number of children of school age will become acute another year. In fact, a close study should be made immediately for additional schoolroom space.

Three years ago four teachers were elected to teach in the first three grades. At that time it was felt that with the reduction of the number of children with each teacher and the emphasis on reading, more and better work could be done. The results more than justify the means. We now reach the close of the third year in June. We face two alternatives. (1) Since there are 50 plus children in the so-called third grade and since we do not have the same set-up for the three intermediate grades, the fourth grade teacher will have over 50 pupils in the fourth grade next year. (2) Or we can go back to the old system of Grades 1-2-3, but with this change. Out of these three grades we shall have to pick out those children who will need more individual help and use the fourth teacher in the primary group for this work with individuals. The fourth grade teacher will get a little larger class than usual, however.

The solution as stated in the second alternative would seem at this time to be the best one since all available classroom space is being occupied. However, all interested persons should know at this time that more housing space must be made available within the next year.

Over the past ten years every board member has sincerely tried to work toward the improvement of the curricula of the school. In these attempts we have had agriculture alternating with general shop or woodworking. At various times during this period neither shop courses nor agriculture have been offered. This has been due to the fact that good teachers have not always been available as

well as equipment, materials, and housing. At the present time we are giving a very modified shop course labeled an activity program for boys in Grades 7-8. This was recommended in view of the fact that the girls in these grades were getting a good course in home-making. The time has come to decide whether we are willing to set up a good shop course with a really good instructor or wait until Raymond as well as the surrounding towns desire to build a cooperative school to house between 400 and 500 pupils, Grades 7-12, and give the children in this area the type of education to which they are entitled. Nothing is being definitely planned to install a shop course which would do the job because the trend is toward the larger school, the cooperative or regional school.

No doubt you are familiar with the situation in Manchester. Whether we want to believe it or not, we shall face within a very short time a problem in housing which will seem almost impossible to realize.

Suppose, and it has already been stated by the Mayor of Manchester, that the city of Manchester refuses to accept the students from some of the towns in this area. Let us give as examples Candia, Deerfield, and Hooksett. These three towns send to the public high schools in Manchester about 150 pupils—Candia, 50, Deerfield 10, and Hooksett 90. Two of these towns will be able to take care of 100 pupils—Deerfield and Hooksett—by sending their children to Coe-Brown Academy and Pembroke Academy and Concord. Candia, however, is different. This town will have about 54 children who will attend high school in the fall. Seven are now attending Raymond High School. Where can the remaining 47 go conveniently and economically but to Raymond? Are you prepared to take this number of pupils at this time?

This picture is not too promising. But according to reports the total number of children just enumerated will not come all at once. However, about 20 will be graduating in Candia this June who will attend public high school. We have had registered already in Raymond in grades 9-12 about 114 children. An additional 20 in the fall would step up the tempo not only in class size, but undoubtedly require at least one and possibly two more

teachers. This increase would continue each year in greater numbers because all classes in Candia are increasing. Add to this number those children in Deerfield who do not desire to go to Coe-Brown Academy and Raymond will have a very vital housing problem.

With a little imagination, one can readily see that the parents in these communities are going to require the type of curricula available in the larger schools—vocal and instrumental music, art, an extensive shop program, a guidance program which will mean a full time guidance officer, and an extended physical education program to name a few. All of these programs will require an increase in facilities with increased costs. At the present time we cannot adequately assimilate any marked increase in school population and with a steady growth each year something drastic must be done immediately.

What is the answer? In other sections of the state and nation this question has been answered through the Co-operative or Regional School which would house up to 500 children and bring together the surrounding towns into a more or less central school. A school of this nature would require from 20 to 30 teachers, regular and special, with a program developed to meet modern educational needs.

A school of this kind will require a compromise or "a give and take" from every town which desires to become a part of the movement. It has worked in other sections and it would work in this area.

Already work has been done to a considerable degree on such a project although a great deal more must be done. Sure, it will cost more money, but freedom has always cost money, a great deal of it, and the children of these United States in the future must be prepared to meet that cost. How else can it be done than through education?

May I thank the Board, the Principal, Teachers, Parents, Children, and friends who have helped in any way to make this school year worthwhile and profitable especially to the youth of the town.

Respectfully submitted,
MURRAY H. WATSON

PRINCIPAL'S REPORT

To the Superintendent and School Board:

As I review the events of the past year preparatory to submitting my annual report as principal of the Raymond Consolidated School, I am inclined to feel that this has been a year in which those of us concerned with the administration of the school have been faced with more than the usual number of challenging problems. For one thing, we have had personnel changes in no less than six departments. However, thanks to prompt action toward the solution of this problem we are pleased to be able to report at this time that our school is again meeting its responsibilities in a most satisfactory manner.

ADMINISTRATION

This area of the principalship embraces the actual plant management which includes such factors as health, safety, sanitation, heating, lighting, ventilation, and custodial service. Very closely related to this function is the matter of business management, the ordering and distribution of supplies, books and equipment and any of the activities which require the handling of moneys such as cafeteria (money collection) fund raising projects, athletics and entertainments. Next is the function of public relations or keeping the public informed. Record keeping is an important function in the daily routine of the office where attendance records, academic records and reports are handled. Guidance conferences play an increasingly important role in the education of our youth. This function is currently augmented by a broader testing program.

With the purchase of a new dishwasher and upright freezer sanitation in the kitchen has been improved immeasurably. And since the enlargement of the dining area and consolidation of the kitchen unit, we feel that we have improved the safety factor for youngsters while eating. To prove this point we conducted a fire drill at lunch time. With the dining area filled to capacity and one of the three exits blocked off, the youngsters were evacuated in less than twenty seconds.

The new floor maintenance machine has already saved sufficient custodial time and cleaning materials to more than pay for itself.

We feel, as does the State Department of Health, that improvements in the lighting in the old section of the building would be most desirable.

In the health department, over fifty children received free dental treatment through the efforts of the Parent Teachers Association. Each and every youngster in the school was given a physical examination early in the fall. And the Salk Polio Vaccine was made available to youngsters, from six months to twenty years of age.

The new permanent record folder developed last year makes it possible for us to keep your youngsters complete record in one folder from the time he enters school to the time he graduates, and for five years thereafter.

SUPERVISION

Supervision is the area in which we attempt to improve the teacher-learning situation. The area in which the greatest improvement is to be noted is our new laboratory facility, which is both pleasant and adequate.

Supervision, also attempts to improve instruction by helping the staff to grow in service. Classroom visitation is a part of the daily routine.

The coordination of learning activities between grades is an important aspect of supervision. So important, in fact, that we have set up minimum standards of achievement for each grade level—outlining the learning activities at each level.

The learning situation in the high school has been improved by the addition of five standard typewriters (government surplus) and an electric typewriter to our Commercial Department.

Our study hall facility has been improved with new movable furniture of adequate size replacing the antiquated, elementary size, fixed furniture.

One suggested area of improvement is some kind of vocational education for boys.

ACTIVITIES

We continue to sponsor a variety of extra-curricular activities. While victories and public recognition are not our prime objectives, in the activity program our school provides, we do feel that the desire to achieve success and to settle for nothing less than the best are qualities to be encouraged in every student activity. The achievements and the successful results attained by all our athletic groups as well as our dramatic casts and music groups, are things of which we have reason to be proud, as we review the doings of the past year. Sometimes such student achievements can be more readily observed and recognized by parents and citizens when they occur in non-academic activities, but we have reason to believe that similar achievements are likewise being accomplished in equal measure in our classroom activities. Especially, when one considers the ever increasing number of graduates enrolled in institutions of higher learning.

In closing, we wish to express our gratitude to the various civic organizations for their continued interest in the welfare of our children.

May we also take this opportunity to express our gratitude to our hardworking staff; thank you one and all, most sincerely.

And last but by no means least, may we thank you, our fellow townspeople for your continued cooperation and support.

Respectfully submitted,

John J. Callaghan
